Director Speaks

In order to succeed, organizations need to grow, because the world moves forward at an ever-quickenning pace, stagnation really means moving backward. Since the organizations very beginning, Joy Foundation has continued to demonstrate impressive growth in the fields of Education, Women Empowerment, Emergency Relief, WASH, Health and Disabled Empowerment. In the past few months Joy Foundation has done its best in the fields of Education, Peace Building and Youth Empowerment. With its best efforts, Joy Foundation tried to involve Youth in the Peace Building processes through capacity building and awareness rising on the important issues which strengthened and motivated the youth.

None of these accomplishments or future plans would have been possible without the work of the talented and dedicated staff here at Joy Foundation. Nor would they be possible without the support of our partner organizations. Please know that I remain grateful for both. I deeply appreciate the dedicated volunteers also. There is no greater reward than the opportunity to work with passionate volunteers.

These accomplishments make me confident for a bright future!

Formal Education Program

“Our focus on education is from grass-root level for unprivileged children.”

Chak No 325 Toba Tek Singh

Joy Foundation is running a Formal Education School from 2 year in Chak No 325, Toba Tek Singh. The school is growing day by day.

After the examinations children have moved to next class, new admissions opened and new children are enrolled into the school. Prizes were given to children who took positions. All the books, copies and stationary material for both classes were provided by Joy Foundation.

The teachers of the school are doing a great job and contributing a lot for the school and community. The community is happy with the efforts of Joy Foundation. We are looking forward to provide the best education to the children in this community.

Provision of Solar Panels in School

As the village has no electricity many parents refused to send their children to school before, which not only badly affected the schools strength but was also a great loss for children as it was affecting their education. Joy Foundation installed 2 solar panels in the school which are now fulfilling the electricity needs of the school.

After the provision of electricity in the school children are now regularly attending the classes. The teachers told that it is now much easy for them to teach the children in school as fans are a great facility in summers and it is also comfortable for children to study in properly lighten classrooms.

Parents Counseling Meetings

Joy Foundation organized parents counseling meetings in village where we have our school. The agenda of these meetings was to motivate the parents on the importance of education in the life of their children. Because Joy Foundation felt that parent's involvement is an issue that needs to be continuously addressed. The Director, Sir Yaqoob Sadiq along with the staff of Joy Foundation visited the villages and conducted these meetings.

When parents or guardians are involved and interested in their child's academic life, the student is more likely to succeed. Parents were told that parenting isn't always an easy job we all know. We all experience moments of uncertainty about how to balance the needs of our various family members, teach our kids the skills they need, provide consistent discipline, and manage our children's moods. A relaxed, informative and interactive way to involve in your child's educational life is by improving communication, developing positive and effective discipline, and nurturing children's self-confidence and focus on key skills like loving, listening, speaking, coaching, enforcing the limits and building confidence in your children.

Books Distribution Ceremony and material for school

After the completion of the renovation of the building the classes began in the new school. All stationary material for school was given to teachers including pencils, erasers, pencil sharpeners, pencil colors, bulletin board designing materials, and ink pens for teachers. A Books Distribution Ceremony was organized and books were distributed among the school children. Parents of the children were specially invited so that they may know what Joy Foundation is doing for them and they may know the value of sending their children to school as it will brighten up their future. The parents thanked Joy Foundation and teachers.
